EDUCATION

Software Engineering Technology (Co-op) Advanced Diploma Centennial College, Toronto, ON	Sept. 2024 – Present GPA: 4.2/4.5 (A)
--	--

Key Courses: Java/C# Programming | Unix/Linux Operating Systems | Software Requirements | Client-Side Web Development | Advanced Database Concepts (SQL) | Web Application Development

ACADEMIC PROJECTS

Software Requirements Specification Document - EyeKeepNotes

- Initiated and coordinated team through mock SCRUM meetings, ensuring the development of an SRS document for the application, *EyeKeepNotes*, to support the visually impaired with accessible features
- Designed UML diagrams, Swimlane Diagrams and State Diagrams, as well as documented functional/non-functional requirements

Web Portfolio – JavaScript, CSS/HTML, Express, GitHub, Netlify

- Developed a visually engaging and responsive portfolio website with dynamic JavaScript features and Express backend integration, emphasizing modern UI design and smooth user experience
- Continuously enhance and maintain the portfolio through GitHub, with automatic deployments to Netlify for live updates, reflecting ongoing technical and design growth

WORK EXPERIENCE

Grocery Clerk (Part-Time) Longo's, North York, ON	May. 2021 – Present
---	---------------------

- Offering strong solutions to customer service to 100 patrons daily in a high-volume setting while managing other tasks including guests' inquiry, maintaining shelf stocks, and ensuring store tidiness.
- Providing excellent communication among team members to collaboratively tackle tasks as a team, clarifying uncertainties, assigning task delegations and making sure tasks are done before closing time.
